UI/UX & Product Designer

UI/UX designer with 4+ years of experience designing web and mobile products for Nepal and international clients. My process runs from user research and user flows to wireframes, prototypes, usability testing and developer handoff. I have designed complete products end to end, including user apps, admin CMS panels and mobile versions. A background in frontend development (HTML, CSS, JavaScript) means I write specs developers can build and I review the build against the design.

WORK EXPERIENCE

Inocyte Tech **06/2026 - Present**
Co-founder & Product Manager • Part-time **Setopul, Kathmandu**

- Lead product and design as co-founder: requirements, user flows, wireframes, high-fidelity UI and developer handoff.
- Set product priorities and plan phased releases with the co-founders and engineering team.

Idea Associates **03/2025 - Present**
Product Designer & Product Manager • Full-time **Gatthaghar, Bhaktapur**

- Built a Figma design system from scratch: design tokens, a reusable component library, and responsive layouts for desktop and mobile.
- Lead product design for web and mobile apps, including Eng Sutra, from user research to low-fidelity wireframes and developer-ready, high-fidelity prototypes.
- Run usability tests to validate product assumptions, and improve accessibility based on the findings.
- Plan projects, track milestones, and work with development, QA, marketing and sales to align requirements with business priorities.

WSN IT Consulting **01/2025 - 03/2025**
UI/UX Designer **Texas, USA**

- Designed interfaces and design systems aligned with each client's brand.
- Converted Figma designs into responsive WordPress themes.

Gamenic Virtual Studio **11/2023 - 08/2024**
UI/UX Designer **Boudha, Kathmandu, Nepal**

- Ran user research and usability testing, and refined Figma wireframes and prototypes based on the findings.
- Worked with developers to implement the design system.

Self-employed **01/2021 - 01/2023**
Freelance UI/UX Designer

- Designed end to end for 10+ clients across SaaS and e-commerce, covering discovery, research, wireframes and developer handoff.
- Built reusable design systems and component libraries so clients could keep extending their products after the project ended.

Kathmandu Animal Treatment Center **10/2019 - 05/2021**
WordPress Developer **Budhanilkantha, Kathmandu, Nepal**

- Built and maintained the organisation's website with a focus on accessibility and performance.
- Trained staff on content updates and basic upkeep.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc CSIT)
New Summit College, Tribhuvan University 01/2018 - 01/2023

Science Faculty (Physics)
Xavier International College 01/2016 - 01/2018

PROJECTS

Eng Sutra (engsutra.com)

Idea Associates

Designed a web and mobile toolbox for Nepali engineers with 120+ calculators, a BOQ builder, e-books and NEC licence exam prep. Covered the user app, mobile version and admin CMS, including guest access, empty states and Fonepay/manual payment flows with failed-payment handling.

SKILLS

UI: Component Libraries, Design System, High-fidelity UI, Multilingual UI, Responsive & Mobile-First Design

UX: Accessibility, Accessibility (WCAG), Information Architecture, Interaction Design, Prototyping, Usability Testing, User Flows, User Research, Wireframing

Product & Delivery: Prioritisation, Product Roadmapping, Release Planning, Requirements, Sprint Planning, Stakeholder Communication, User Story Mapping

Handoff: CSS3, Design QA, Developer Specs, HTML5, JavaScript

Tools: Adobe XD, Asana, ClickUp, Figma, Illustrator, Jira, Notion, Open Project, Photoshop
